

Welcome to Northeast Stars Montessori!

Montessori and More!

Thank you for your interest in Northeast Stars Montessori Preschools!

Here at NES, we recognize that learning comes in all shapes and sizes. Some things may work for your child, and some may not. At NES, our mission is to combine the Montessori Curriculum, focusing on independent learning, with a healthy amount of group and social activities. Your child will receive a well-rounded education in our classrooms.

As a parent, you may be wondering: **Why Choose Northeast Stars Montessori?**

The Montessori curriculum allows you and your child to grow at an individual pace. While many preschools focus on a singular facet of learning, NES Montessori and its teachers focus on every facet of learning, including:

★ Gross Motor Skills

★ Art, Music, and Dance

★ Fine Motor Skills

★ Science and Math

★ Social Skills

★ History

★ Concentration and Focus

★ Verbal Skills

★ Literacy Skills

★ Play Based Learning

Each of these **developmental and educational skills** will allow your child to transition into kindergarten with a sense of purpose and an understanding of the world.

NES has two locations in the D.C. Metro Area. Located in Alexandria and Northeast D.C., NES offers a community for parents and preschoolers alike. [Schedule a Visit to Alexandria](#) or [Schedule a Visit to DC](#) to see the NES classrooms in action!
