WEEK 1 (5/28): UNDER THE SEA EXPLORATION

Our friends explore what is below the ocean's surface by digging for seashells, catching fish with pipe cleaners, and sorting shells! We also have a salt water density experiment that shows the difference between the ocean and our drinking water.

WEEK 2 (6/3): DINOSAUR DISCOVERY

Volcanic eruptions, The Ige Age, and fossil excavation: This week is all about the life of dinosaurs!

WEEK 3 (6/10): OOEY GOOEY SCIENCE

Lots of fun science discovery this week including: mixing primary and secondary colors, water solubility projects, and making foil boats

WEEK 4 (6/17): LITTLE BAKERS

Our Stars will participate in fruit and vegetable washing, making sweet and savory treats alongside their guides, and learn about how food fuels our bodies!

WEEK 5 (6/24): MOOVIN' AND GROOVIN'

This week, we will be discovering different styles of music! Our friends will craft their own button castanets, make maracas with rice, and create music with water.

WEEK 6 (7/1): GOING GREEN

Our focus this week is reduce, reuse, and recycle! Our friends will learn how to plant a seed, make apple bird feeders, and turn trash into treasure!

WEEK 7 (7/8): BARNYARD PALOOZA

Our friends will learn more about all of the animals we can find on a farm. We will learn about herding sheep, the life cycle of a chicken, explore in the sensory bins, and make butter!

WEEK 8 (7/15): BOTANICAL WONDERS

We will be discovering a variety of flowers and ways to use them! Our friends will learn about the life cycle of a flower, making floral arrangements, and experiment with the color of flower petals!

WEEK 9 (7/22): ANIMAL ACTION

Lots of fun animal discovery this week! We will be discussing who lives in a zoo, experiment with jellyfish bead counting, and working on fine motor skills to make a hedgehog with playdough!

WEEK 10 (7/29): SUMMER CAMP OLYMPICS

This week we will learn about the olympics! Our friends will participate in a long jump activity, make olympic torches, and discover olympic traditions!

WEEK 11 (8/5): SYMPHONY OF THE FIVE SENSES

We will be conducting taste and smell tests and exploring our mystery box. OR Blindfold drawings, mystery sound eggs, scented Playdough, taste tests, and homemade finger paint, touch scavenger hunt and five senses matching are all part of the exploration of our senses.

WEEK 12 (8/12): SPIRIT WEEK/COUNTRIES

We will be learning simple phrases in languages from countries around the world! We will also be exploring cultures and cuisines and learning about their flags!

WEEK 13 (8/19): TRANSPORTATION

We start the week with "parking lot math", making traffic lights, and ice boat racing! This week is all about different methods of transportation and how we can utilize them.
